Statement of Work (SOW)

Objective

Deploy Shopify nightly backfill pipeline with Cloud Run & Scheduler.

Scope

• Deploy service in client's GCP project
• Configure 2 jobs: orders, products nightly (Istanbul TZ)
• Add monitoring (/health, logs)
• 2 weeks of daily runs + support

Deliverables

• Working Cloud Run service (FastAPI)
• Scheduler jobs w/ OIDC auth
• One dashboard (BQ or Looker Studio)
• Success criteria: 10 consecutive days of fresh data

Timeline

Week 1: Deploy & validate pipeline
Week 2: Dashboards, monitoring, success review

Commercials

Starter pilot: Fixed fee ($X) or included in Growth tier trial.
